SECURITY RISK
MANAGEMENT SOLUTIONS

ELECTRONIC SECURITY SOLUTIONS

Comprehensive site security management requires a multi-functional approach including physical protection (barriers), electronic protection (detection), and process (monitoring, screening and control).

In this context, STS has developed a wide range of security products which reduces risk and optimize your overall security solution, keeping in mind efficient utilization of electricity to help you save money and been environmentally friendly.

Access Control :

This is the heart of a modern security system.

It is the central component from which intrusion, fire, and video monitoring take credit for their operations.

STS has long-standing experience and exclusive technologies which respond to a diverse set of client needs. Solutions range from basic access control systems with a few readers, to a comprehensive installation of centralized security management systems which can manage multiple sites and locations.

We Serve

- Govt Facilities.
- Banking Sector.
- Industrial and Medical Facilities.
- Commercial & Residential Facilities.

Dogs have proven to be versatile and loyal animals.

Their basic instincts are sharpened by very well trained and experienced K9- trainers and handlers.

STS K9- unit trains the dogs to detect drugs and explosives.

The main aim of our K9- unit is to discourage criminal activity and maintain peace and order.

It takes a special dog with the right personality and learning capability to serve alongside our security team to detect and deter unlawful activities that leaves our clients and business owners victimized.

K-9 SOLUTIONS
